

Resting in Your Love

Andrew Gold

On the road it's hard to guess
Just where you may be
Since I left you've gone it seems
Like some remembered dream
You told me that you'd wait around
And see how much would last
I check my watch from town to town
How much time will pass?

But I can't, I can't wonder
When or where I'll be
'Til I'm resting in your love

I walked around in Santa Fe
To see what I could see
I tried to work out everything
What you mean to me

Well, it's fine
It snowed last night
Such a sight to see
But everywhere I look I find
That you are not with me

But I can't, I can't wonder
When or where I'll be
'Til I'm resting in your love

Long ago, so long ago
And in some other place
(In some other place)
And like some other face I knew
It won't be right 'til I'm at home with you

I can't, I can't wonder
When or where I'll be
'Til I'm resting in your love

Long ago, so long ago
And in some other place
(In some other place)
And like some other face I knew
It won't be right 'til I'm at home with you

Home with you
Home with you
Home with you
