

Stranded On the Edge

Andrew Gold

So cold when you're standing all alone
On the outside looking in
No one knows, cares about where you've been
That's the situation that I'm in
Been cast out, there ain't a shadow of doubt
I've been knocked down to my knees
This ain't the way it's supposed to be
Honey, look at me now

It's you that threw me out on my own
Hangin' up the telephone
Took me out here alone

Now I'm stranded, dirty and branded
Baby, I'm stranded
Stranded on the edge
Stranded, dirty and branded
Baby, I'm stranded
Stranded on the edge

I took the big fall
Now my back's against the wall
There's just no place left to stand
There's no one there to lend me a hand
There's no one left to stick their two cents in

You don't know, honey, how it feels to be
Kicked out of society
Kicked right out on the street

Now I'm stranded, dirty and branded
Baby, I'm stranded
Stranded on the edge
Stranded, dirty and branded
Baby, I'm stranded
Stranded on the edge

Stranded, dirty and branded
Baby, I'm stranded
Stranded on the edge
Stranded, dirty and branded
Baby, I'm stranded

Stranded, dirty and branded
Stranded, dirty and branded
Stranded, dirty and branded
Baby, I'm stranded
Stranded, dirty and branded
Baby, I'm stranded
Stranded on the edge
Stranded, dirty and branded
Baby, I'm stranded
Stranded on the edge
Stranded, dirty and branded
Baby, I'm stranded
