

My Brain Is a Human Body

Andrew Jackson Jihad

My brain is a human body
My brain is a human body
And you will not get out
You will not get out

My blood is worse than your blood
This heart pumps baby piss
So you will not get out
You will not get out

I thought I saw you
Before I knew you
I thought I saw you
Before I knew you
I thought I saw you
Before I knew who you were

My body is a bezoar
Big ball, blood, teeth, and hair
I give just like I take
I eat whats on my plate

My body is a bolus
Floating in my lover's stomach
I won't evaporate
It's better before my brain

I thought I saw you
At the Quiznos
I thought I saw you
At the Peacock park
I thought I saw you
Before I knew who you were
