

# Shot Out of a Cannon

Andrew McMahon in the Wilderness

Even with the lights and the power down  
Even when the earth shakes and breaks your crown  
Even if the cops run us out of town  
I wouldn't care  
And when you speak, but you make no sound  
Flying like a kite on the battleground  
I'll be ready  
Hold me steady when we travel through the air

Shot out of a cannon  
I'm defying gravity  
And you're the drug that's keeping me from landing, yeah  
We could fall or we could fly  
Or we could borrow winds of tighter standing, yeah  
Catapult our destiny  
Tonight we're leaving for another planet, planet  
Shot out of a cannon, cannon  
Shot out of a cannon

We could tell the world that we disappeared  
We could tell the way out was way up here  
Would could tell the truth even if no one would ever care  
'Cause I am ready  
Hold me steady  
We can travel through the air

Shot out of a cannon  
I'm defying gravity  
And you're the drug that's keeping me from landing, yeah  
We could fall or we could fly  
Or we could borrow winds of tighter standing, yeah  
Catapult our destiny  
Tonight we're leaving for another planet, planet  
Shot out of a cannon, cannon  
Shot out of a cannon  
Shot out of a cannon

In the dark, in the dark, in the dead of night  
You got a heart, got a heart like a neon sign  
In the dark, in the dark, when I'm flying blind  
You got a heart like a neon sign  
It's true

Shot out of a cannon  
I'm defying gravity  
And you're the drug that's keeping me from landing, yeah  
Catapult our destiny  
Tonight we're leaving for another planet, planet  
Shot out of a cannon, cannon  
Shot out of a cannon  
Shot out of a  
Shot out of a, shot out of a cannon, cannon  
Shot out of a cannon
