

God Made Me Listen

Andrew Peterson

God made slugs and bugs and rats and bats
And nasty bees who won't say please
They sting your elbows and your knees if you chase them

God made snakes and snails and killer whales
And if you were a baby seal
Then you would make a tasty meal for orcas

God made me
Like He made the sea
And filled it up with green and blue
He sent His Son
His only One
To fill me up and make me new

God made everything that was or is
Or will be, what a crazy biz
I can't believe that I am his forever

Now I listen very carefully
Because He lives inside of me
That could be gross, but it's not 'cause it's Jesus Christ, my
Lord and Saviour

God made me
Like He made the sea
And filled it up with green and blue
He sent His Son
His only One
To fill me up and make me new
