## **My Reflection**

## **Andrew Rayel**

I have this faith, that just I've shaven Caught us on my mind They're calling waves to take me away I won't be back tonight

When I breathe, goes sails We've left behind My dream, ... Will always be mine

Now I feel as years haven't fold, oh And we're still connected To those days when we were young, oh And you're my reflection (And you are) (My reflection)

Now I feel as years haven't fold, oh And we're still connected To those days when we were young, oh And you're my reflection (And you are) (You are my reflection)
