

# Never Let Me Go

Andrew Rayel

Have you lost your way through the shadows?  
Are you afraid of what's left inside?  
We're halfway there, don't wait 'til tomorrow

Find me by your side

Don't know where to start but I do know  
Time slows and stops when you're here  
With your hand in mine, end the anger  
We can learn to feel

I give you all that I am now  
I follow the only road I know  
You turn me upside down  
But I can never let you go

So never let me go, oh  
No, don't you let go, oh  
Never let me go, oh  
No, don't you let go, oh  
Never let me go

So never let me go, oh  
No, don't you let go, oh  
Never let me go, oh  
No, don't you let go, oh  
Never let me go

Never let me go  
Never let me go

I've got so much to say but for now  
I just replace my words with your dreams  
We can take it over the limit  
What we have is real

We were lost and found in the city  
A place where you can see the stars  
Oh we shine so bright, can you feel it?  
We were built to last

I give you all that I am now  
I follow the only road I know  
You turn me upside down  
But I can never let you go

So never let me go, oh  
No, don't you let go, oh  
Never let me go, oh  
No, don't you let go, oh  
Never let me go

Never let me go  
Never let me go  
Never let me go  
Never let me go

Never let me go
