

In Good Hands

Andrew Ripp

I was there when you're life began
Drew the lines in the palm of your hand
Heard you cry, did you think I'd let you go?
I was there when you took a step
Held your mom as she held her breath
Walked with you when you thought you were alone
I was there, did you think I'd let you go?

When the steady ground crumbles
I'll be the place where you stand
When your heartbroken I will
Be strong when you can't
I'm here when you're ready
To trust me again
Let go of your life and
Find you have always been
In good hands
In good hands
In good hands

I was there when the walls collapsed
Stayed with you till the storm had passed
Heard your prayer, did you think I'd ever leave?
I was there in the darkest night
Crawled with you into morning light
Gave you strength when your weary soul was weak
I was there, did you think I'd ever leave?

When the steady ground crumbles
I'll be the place where you stand
When your heartbroken I will
Be strong when you can't
I'm here when you're ready
To trust me again
Let go of your life and
Find you have always been
In good hands
In good hands
In good hands

I got you, I got you, I got you, I got you
You don't gotta worry at all
You don't gotta worry in good hands
I will say it forever if I have to
You don't gotta worry at all
You don't gotta worry in good hands

I got you, I got you, I got you, I got you
You don't gotta worry at all
You don't gotta worry in good hands
I will say it forever if I have to
You don't gotta worry at all
You don't gotta worry in good hands

When the steady ground crumbles
I'll be the place where you stand
When your heartbroken I will

Be strong when you can't
I'm here when you're ready
To trust me again
Let go of your life and
Find you have always been
In good hands
In good hands
In good hands

Find healing and rescue
In the arms of a friend
Let go of your life and
Find you have always been
In good hands
