

# Pilots

Andrew Ripp

Honey, we could put the past in the backseat  
You don't have to say you're sorry  
You don't have to say your sorry, no no  
Go on and tell me all the things want to  
Tell me what you're holding on to  
Honey, I'm just gonna hold you closer

We don't have to wait for our life to begin  
When we're already standing  
Out on the runway  
Open up your heart and let it catch the wind  
Just reach out and take my hand  
Nothing in our way

They keep saying time flies  
But baby we're the pilots  
We'll be flying wherever we want, tonight  
Baby, were the pilots, were the pilots  
They keep saying time flies  
But baby, we're the pilots  
We're arriving whenever we want, tonight  
Baby, we're the pilots, baby, we are the pilots

Don't need a ticket to come home  
When you want to  
Cuz even when I'm not with you I'm with you  
Sun up or sun down

We don't have to wait for our life to begin  
Cuz we're already standing  
Out on the runway  
Open up your heart and let it catch the wind  
Just reach out and take my hand  
Nothing in our way

They keep saying time flies  
But baby we're the pilots  
We'll be flying wherever we want, tonight  
Baby, were the pilots, were the pilots  
They keep saying time flies  
But baby, we're the pilots  
We're arriving whenever we want, tonight  
Baby, we're the pilots, baby, we are the pilots

You can go higher than the birds do  
Love is gonna take you there  
Just keep on running till the sky's blue  
Love is gonna take you there

They keep saying time flies  
But baby we're the pilots  
We'll be flying wherever we want, tonight  
Baby, were the pilots, were the pilots  
They keep saying time flies  
But baby, we're the pilots  
We're arriving whenever we want, tonight  
Baby, we're the pilots, baby, we are the pilots
