

Rescue Me

Andrew Ripp

Kind feel like praying
Don't know what I'm saying been so long
Kinda feel like crying
I've crossed a line and I can't find home
But if anybody hears me
And you can undo the things I've done

Drag me down to the river and throw me in
I ain't talking bout the shallow but the deepest end
Take me down and hold me under
Don't let me breathe
Until you know I'm good and ready
For you to rescue me

Kinda feel like singing
First time feeling in oh so long
Kinda feel like swaying
Moving to the rhythm of a healing song
Momma must be praying
Cause I can't explain what's going on

Drag me down to the river and throw me in
I ain't talking bout the shallow but the deepest end
Take me down and hold me under
Don't let me breathe
Until you know I'm good and ready
For you to rescue me

I can't believe how far I've gone
If there's still a room for me at home

Drag me down to the river and throw me in
I ain't talking bout the shallow but the deepest end
Take me down and hold me under
Don't let me breathe
Until you know I'm good and ready
For you to rescue me
Until you know I'm good and ready
For you to rescue me...
