

Revenant

Andrew Ripp

It took losing everything I knew
To find out what I really had
It took pulling and pulling at every thread
To finally see the elephant in the room
Hiding for so long from what's true
Love isn't just strong, it's bulletproof
And no resistance could keep us apart
Infinite hearts always make it through
Yeah, we'll make it through

You and I
Are Heaven sent
We come back
Like a revenant
From a last hope
To a first breath
We come back
Like a revenant

Just a couple kids hung over the moon
Getting ahead of ourselves
Like the night sky kissing the blue
We were brave enough to wish it well
Said it for so long it came true
Now all that we've got's nothing to lose
Like northern lights and stars in the dark
Infinite hearts always make it through
Yeah, we'll make it through

You and I
Are Heaven sent
We come back
Like a revenant
From a last hope
To a first breath
We come back
Like a revenant

No fire's gonna burn us down
No storm's gonna drown us out
We're the wildflowers on holy ground
Holy ground
No fire's gonna burn us down
No storm's gonna drown us out
We're the wildflowers on holy ground
Holy ground

You and I
Are Heaven sent
We come back
Like a revenant
From a last hope
To a first breath
We come back
Like a revenant

You and I

Are Heaven sent
We come back
Like a revenant
From a last hope
To a first breath
We come back
Like a revenant

No fire's gonna burn us down
No storm's gonna drown us out
We're the wildflowers on holy ground
Come back like a revenant
