

## Tim's Song

Andrew Ripp

I'm changin'  
All of my life, all of my fears, gone away  
And its crazy this story of us  
I leave behind in a memory

Everyone's breakin'  
And I'm breakin' too

You would show me love  
You could lift me up  
And you could help say goodbye to everything that was  
And you would help me breathe  
Bring me to my knees  
And you would show me everything there ever was to see  
Ohoh, because of you

And she's cryin', I know she sees  
Still she believes in remembering  
And she's prayin' for just one more chance  
She just wants to dance one more evening

Katies breakin'  
And I'm breakin' too

You would show me love  
You could lift me up  
And you could help say goodbye to everything that was  
And you would help me breathe  
Bring me to my knees  
And you would show me everything there ever was to see

Oh, I can hear you say don't be scared  
Don't be scared  
Oh Lord, don't be scared to say goodbye

And you would show me love  
And you could lift me up  
And you would help say goodbye to everything that was  
And you could help me breathe  
Bring me to my knees  
And you could show me everything there ever was to see  
And I won't be scared because of you  
I won't be scared, won't be scared to say goodbye because of you  
I won't be scared, won't be scared to say goodbye because of you  
I won't be scared, won't be scared to say goodbye because of you  
I won't be scared, won't be scared to say goodbye because of you  
I won't be scared, won't be scared to say goodbye because of you
