

Keep On Going

Andrew W.K.

Far away from everyone
Let 'em blow away in the dust
And trust that everything
Is somehow gunna be alright

Can you remember your dreams?
Can you remember your darkest day?
All your deafening screams
But you kept on going anyway

Can you remember your fears?
Can you remember how it felt to cry?
All of your nightmare tears
Never figured out the reason why

But when they tried to push you 'round
You just stood your ground
And you kept on going

And when they tried to break your heart
You didn't fall apart
You just kept on going

'Cause that's the reason
That's the meaning
The meaning of a star

When you get back up and
Just keep on going
'Til you're

Far away from everyone
Let 'em blow away in the dust
And trust that everything
Is somehow gunna be alright

Can you remember their eyes?
The way you felt when they looked at you?
Can you remember their lies?
The way you felt when you tried it too?

Can you remember the sorrow?
The way you felt like the world would end?
Can you remember tomorrow?
Can you learn to be your own best friend?

But when they tried to push you 'round
You just stood your ground
And you kept on going

And when they tried to break your heart
You didn't fall apart
You just kept on going

'Cause that's the reason
That's the meaning
The meaning of a star

When you get back up and
Just keep on going
Until you're

Far away from everyone
Far away from everyone
Just keep on going away from everyone
Far away from everyone
Just keep on going away from everyone
Far away from everyone
Just keep on going away from everyone
Just keep on going away from everyone
Just keep on going away from everyone
Just keep on going away from everyone
Just keep on going
