

# Never Let Down

Andrew W.K.

Never wanna break your heart  
Never wanna make you cry  
Never wanna give up and die

Even if you can't stand up  
Even if you lose your life  
I'm a friend by your side  
You're never gonna be alone

You can never let down  
Never let down  
You can never let down  
Never let down

Never wanna make mistakes  
Never wanna do no wrong  
Never have a place to belong

And I'm never gonna leave you out  
If you ever lose your way  
Not alone or betrayed  
I'm always gonna be around

You can never let down  
Never let down

You're doing alright  
You're doing ok  
Just follow your heart  
And don't run away

You can never let down

You're doing alright  
You're doing ok  
Just follow your heart  
And don't run away

You can never let down

You're doing alright  
You're doing ok  
Just follow your heart  
And don't run away

Never wanna break your heart
