

## I Need to Know

Android Lust

I need to know  
I need to ask  
I need to see if we're built to last  
I need to see  
Do I still  
Believe that you belong to me

It's well past time  
I set my affairs to right  
All this new information  
Started anew this struggle inside

I need to know  
I need to find  
I've been looking for some sign  
You should know  
I don't mind  
If our paths are no more aligned

I have learned  
It's been good  
We are drifting we knew we would  
I need to find  
I need to seek  
The stranger and merge within
