

Into The Sun

Android Lust

Dig deep dig
Under around
Scratch peel dig
Dig beneath the sound

Dig deep dig
Dig under the earth
Dig deep dig
Dig for your jewels and your pearls

I pray for my mother
I pray for my lover
I pray for a sister who are struck by the sun
May you through water
May you through fire
May you through aether reach the one you want

Dig deep dig
In your flesh and bones
Dig until you bleed
Under breath under stone

Dig deep dig
Dig past all of your lines
Set the animal free
Know it's his yours hers and mine

I pray for my mother
I pray for my lover
I pray for a sister who are struck by the sun
May you through water
May you through fire
May you through aether reach the one

I pray for my mother
I pray for my lover
I pray for my sister their travels be done
Into the heart of
A brightness so blinding
As you make your way and journey back into the sun
