

## Face That I Once Knew

Andru Donalds

Tried to see the face  
That I once knew  
The two of us so far apart  
Sometimes I think that we were through  
Thought I knew you  
The very first time though I'd lost you  
The second time around I'd try to see  
The face that I once knew

\*The face that I once  
The face that I once  
The face that I once  
The face that I once knew

You used to be my one temptation  
And all I wanted was you  
Deception seemed to be a game of pain  
Should I realize on the very first time  
If all of your promises were all just lies?  
Trying to see the face that I once knew

Rumors could never deceive you  
In your mind you think and wonder why  
It's burning desire you're talking to  
Telling you you're paying the price  
For falling, falling in love

Watch my face
