

## Power Of The Loser

Andru Donalds

Security and feeling wanted in my mind  
But treated like an extract searching for their kind  
Seems like human beings can't understand  
That every man was made differently on this land

See the man's determination that lies within eyes  
Such strength and such pride: non belief he defies

The power of the looser  
The power of the looser  
The power of the looser  
Never underestimate the power of the loser

Waking up to all that's evil around me  
Erasing all the negatives that're throw my way  
And for the pain that escalates year by year  
I feel the growth as my evolutions clear

The more they insist I fail  
The more I stand to gain;  
Leave my path and trail of inspiration  
Motivation for the brain

The power of the looser  
They seem weak, they seem shy  
The power of the looser  
But their energy is still alive  
The power of the looser  
They don't fear to face the tide  
Never underestimate the power of the loser.
