

DEEP BLUE ANGEL

Andrzej Piaseczny

I was born when the clouds
were running high
and I was born yeah far from
your God you call America
deeper and deeper feeling that my live
was only casual with living
then you were you happened to me
but you're not anymore
rather I want rather I need
then the future's not good
even just to know
you're thinking of me for sometime
just to feel you love
'cause I can't handle with it
that you're not with me
deep blue angel I'll go with her
when i miss you much
won't you believe how I do, I do love you
lose anything of me but my heart
and don't let it now
rest in peace when it's burning
save me damn save me pain while
