

December Brings Me Back To You

Andy Abraham

(feat. Michael Underwood)

Snow on my window, fire's burning brightly
Why do I feel so cold inside?
Carol they're singing, but Santa won't be bringing you home tonight
Just when I think I'm gonna be alright
Then I remember
December brings me back to you

January is easy, February leaves me without a valentine
I put it behind me, and I let the April showers blow by
Just when I think I won't be blue tonight
Then I remember
December brings me back to you

Children playing, smiling faces all around me
But something just doesn't feel right
Oh, I wonder where you are
I can't stay just another
Silent night, woah

I know exactly what I want this Christmas time
Just to have one more night with you
And I, then I remember
December brings me back to you

Carol they're singing, but Santa won't be bringing you home tonight
Just when I think I'm gonna be alright
Then I remember
December brings me back to you
