

# Honey

Andy Brown

I thought I'd run out of patience  
I thought I'd run out of time  
I got so sick of waiting  
For the one to bring me back to life

And the stars fell down  
When you turned around

Everybody sees it  
And I still can't believe it  
How you blow my mind  
The way you got me feeling  
I finally found the meaning of  
This life, your love, you're like a drug  
Sweeter than honey  
Sweeter than honey

I swear you're like an addiction  
You got me under your spell  
The part of me that was missing  
Brought the heaven to my hell

And the stars fall down  
Every time you turn around

Everybody sees it  
And I still can't believe it  
How you blow my mind  
The way you got me feeling  
I finally found the meaning of  
This life, your love, you're like a drug  
Sweeter than honey  
Sweeter than honey

Everyday I get to know ya  
Can't believe I get to call you "honey"  
Think of all the time I wasted  
I guess I never tasted honey, honey

Everybody sees it  
And I still can't believe it  
How you blow my mind  
The way you got me feeling  
I finally found the meaning of  
This life, your love, you're like a drug  
Sweeter than honey  
Sweeter than honey  
Honey  
Sweeter than honey
