

Put That Record On

Andy Brown

Girl you're like tequila
One shot and I can feel ya
I'm not hung over
But I ain't sober
Girl you're looking too hot
Got country on the jukebox
You pulled my closer
Gave me your number

I'm calling you up
Where you at, where you at
'Cause I can't get enough of that

Wish I was that cigarette on your lips, on your breath
Wish that I could get us close as that gold down on your neck
Wish that I could be that bottle that you're sipping on
Yeah I wanna be the only one
Make your body move all night, ooh
Like that [?] that you're putting on

So put that record on, play that song, play that song
Put that record on, play that song, play that song

Baby it's the music
Whatever, let's just use it
I'll steal the moment
Go where you go
In my blood like whiskey
I'm drunk each time you kiss me
And girl I'm hoping
That this bar's still open

'Cause I'm take you out
Where you at, where you at
'Cause I can't get enough of that

Wish I was that cigarette on your lips, on your breath
Wish that I could get us close as that gold down on your neck
Wish that I could be that bottle that you're sipping on
Yeah I wanna be the only one
Make your body move all night, ooh
Like that [?] that you're putting on

So put that record on, play that song, play that song
Put that record on, play that song, play that song
So put that record on, play that song, play that song
Put that record on, play that song, play that song

Wish I was that cigarette on your lips, on your breath
Wish that I could get us close as that gold down on your neck
Wish that I could be that bottle that you're sipping on
Yeah I wanna be the only one
Make your body move all night, ooh
Like that [?] that you're putting on

So put that record on, play that song, play that song
Put that record on, play that song, play that song

So put that record on, play that song, play that song
Put that record on, play that song, play that song
