

You Had Me At Hello

Andy Brown

Riding solo I was flying high
Differences we had every single night
Crusin' life, yeah I just do my thing
There was not a song I'd thought I'd sing
Been there before
And I'm never going back
You changed my mind
As soon as it left your lips

You had me at hello, hello
You're moving in so close
Set my heart on fire
You had me at hello, hello
I'm going where you go
Never say goodbye
You had me at he-he-hello
You had me at he-he-hello

Mind so full of words running away
Told myself I'll never see the day
Something 'bout it I know I can fight
One look at you and I was paralysed
Been there before
And I'm never going back
You changed my mind
As soon as it left your lips

You had me at hello, hello
You're moving in so close
Set my heart on fire
You had me at hello, hello
I'm going where you go
Never say goodbye
You had me at he-he-hello
You had me at he-he-hello

No, high hopes
I didn't see it coming
Stole the show
The power of a woman
And I see now
I know that I was wrong
It hit me like an earthquake
And I'm so far gone

You had me at hello, hello
You're moving in so close
Set my heart on fire
You had me at hello, hello
I'm going where you go
Never say goodbye
You had me at hello, hello
You're moving in so close
Set my heart on fire
You had me at hello, hello
I'm going where you go
Never say goodbye

You had me at he-he-hello
You had me at he-he-hello
He-he-hello
You had me at he-he-hello
