

# After Dark

Andy Gibb

There not anything I would not do to ease your troubled mind  
Where you are, there is a different feeling  
I wake up, I'm on the ceilin', opens up your eyes  
What a shape! Someone you can't forget for any time  
Oh, let me show you mine, immediately

After dark where the lights start fading sweet and low  
I wanna be there, I wanna be there  
We leave immediately  
After dark where the lights start fading sweet and low  
I wanna be there, I wanna be there  
We leave immediately  
After dark

There is no limit that I would not go  
if I could lie beside  
Where you are, there is a different out there  
Love in the jungle can be hard to realize  
What a shape! Someone you can't forget for any time  
Oh, let me show you mine immediately

After dark where the lights are fading sweet and low  
I wanna be there, I wanna be there  
We leave immediately  
After dark where the lights are fading sweet and low  
I wanna be there, I wanna be there  
We leave immediately  
After dark

There is not anything I would not do to ease your troubled mind  
Where you are, there is a different feeling  
I wake up, I'm on the ceilin', opens up your eyes  
What a shape! Someone you can't forget for any time  
Oh, let me show you mine immediately

After dark where the lights start fading sweet and low  
I wanna be there, I wanna be there  
We leave immediately  
After dark where the lights start fading sweet and low  
I wanna be there, I wanna be there  
We leave immediately  
After dark

After dark where the lights start fading sweet and low  
I wanna be there, I wanna be there  
We leave immediately  
After dark where the lights start fading sweet and low  
I wanna be there, I wanna be there  
We leave immediately  
After dark
