

Fool For A Night

Andy Gibb

You don't want to come home cryin'
Lose that magic in your smile
Give it up before you start it
Start to die

Why be a fool for a night
You'd be a fool to fall for a night
Gotta let it grow
Someone you don't really know
A fool for a night
You'd be a fool to fall for a night
Gotta let it show
Someone you don't really know

Old emotions , time has borrowed
Tend to make you think you're right
You're the one I'll all follow
For all times

Why be a fool for a night
You'd be a fool to fall for a night
Gotta let it grow
Someone you don't really know
A fool for a night
You'd be a fool to fall for a night
Gotta let it show
Someone you don't really know

And if you run away
You can't escape from the price you pay , oh no
And when you realize nobody else will care
Where are the friends you made
No one is left who can show the way , oh no
And when the burden ends , I will heal you
Time will turn you back to me

A fool for a night
You'd be a fool to fall for a night
Gotta let it grow
Someone you don't really know
A fool for a night
You'd be a fool to fall for a night
Gotta let it show
Someone you don't really know
