

# Elephant

Andy Grammer

I used to pray they'd hit the long ball  
One foot above centerfield fence  
So I could rival with my glove, the perfect catch  
Well they keep smacking homers her way  
She's making catches at the wall  
Some people cry and try to heal her from the stands  
I applaud

Singing this is just a test  
All the rest is irrelevant  
Sitting in the room, sure the room has an elephant  
Only get sent to those who can handle it  
I feel she was made for this  
Sitting in the room, sure the room has an elephant  
Only get sent to those who can handle it  
I feel she was made for this

We see the prize out in the distance and wonder if we'll get the chance  
But when the seeds come to the door  
We could've sworn we ordered plants  
Well in the back she has a garden, the most beautiful I have ever seen  
She's growing things back there that I can only try and strive to be

Singing this is just a test  
All the rest is irrelevant  
Sitting in the room, sure the room has an elephant  
Only get sent to those who can handle it  
I feel she was made for this  
Sitting in the room, sure the room has an elephant  
Only get sent to those who can handle it  
I feel she was made for this

There she goes again  
All alone again  
There she goes again  
All alone, again

Singing this is just a test  
All the rest is irrelevant  
Sitting in the room, sure the room has an elephant  
Only get sent to those who can handle it  
I feel she was made for this  
Sitting in the room, sure the room has an elephant  
Only get sent to those who can handle it  
I feel she was made for this  
Singing this is just a test  
All the rest is irrelevant

Sitting in the room, sure the room has an elephant  
Only get sent to those who can handle it  
I feel she was made for this  
Sitting in the room, sure the room has an elephant  
Only get sent to those who can handle it  
I feel she is beautiful  
She is beautiful  
She is beautiful
