

# Good Company

Andy Grammer

You and me (you and me)  
You know we make some real good company (company)  
Alright, alright, alright  
Say you and me (you and me)  
You know we make some real good company (company)

Hoppin', we poppin', all the magic we makin'  
Lord knows I love conversating with you  
We come together, get the firework started  
Yeah, we the life of the party, it's true

Like look at that, look at that, look at that vibe  
Everybody gather 'round  
Look at that, look at that, look at that shine  
Lit it up 'till the lights fall down  
Look at that, look at that, look at that smile  
Every time you come around  
I feel like I'm brand new

You and me (you and me)  
You know we make some real good company (company)  
Alright, alright, alright  
Say you and me (you and me)  
You know we make some real good company (company)

We got that chemistry, could blow any moment  
We rollin' like we got nothing to lose  
No signs of stopping, yeah we rockin' it steady  
Sparks are flying like confetti, it's true

Like look at that, look at that, look at that vibe  
Everybody gather 'round  
Look at that, look at that, look at that shine  
Lit it up 'till the lights fall down  
Look at that, look at that, look at that smile  
Every time you come around  
I feel like I'm brand new

You and me (you and me)  
You know we make some real good company (company)  
Alright, alright, alright  
Say you and me (you and me)  
You know we make some real good company (company)

And you can stay as long as you like  
Yeah, you can stay here all night  
I'm saying you and me (you and me)  
You know we make some real good company (company)

We got it bad, bad, bad  
'Cause we so good, good together  
We got it bad, bad, bad  
But it feels so good

You and me (you and me)  
You know we make some real good company (company)  
Alright, alright, alright

Say you and me (you and me)  
You know we make some real good company (company)

And you can stay as long as you like  
Yeah, you can stay here your whole life  
I'm saying you and me (you and me)  
You know we make some real good company (company)
