

# Good In Me

Andy Grammer

I like the way, like the way that I look in your eyes  
And I like the place, like the place I take up in your mind  
I fall on my face, never judgmental  
See, I see mistakes, you see potential

I been afraid, been afraid if I open the door  
That all of my pain will come out and roll out on the floor  
And it did, and it does, but you still pick it up  
You find a way to see the good in me

I know I'm a lot to handle  
And I know that my heart's a handful  
Even in the dark, somehow you see  
The good in me, good in me  
I know that I'm far from perfect  
And you say that my flaws are worth it  
Even when it's hard, I know you see  
The good in me, good in me

I'm like a flood, like a flood, I get carried away  
Yeah, sayin' too much, lotta things that I don't mean to say  
But you give me space, showin' me patience  
And maybe we bend, but we never break it

I been afraid, afraid if I open the door  
That all of my pain will come out and roll onto the floor  
And it did, and it does, but you still pick it up  
You find a way to see the good in me

I know I'm a lot to handle  
And I know that my heart's a handful  
Even in the dark, somehow you see  
The good in me, good in me  
I know that I'm far from perfect  
And you say that my flaws are worth it  
Even when it's hard, I know you see  
The good in me, good in me

Woah, oh  
The good in me, good in me  
Woah  
The good in me, good in me  
Woah, oh  
The good in me, good in me  
Woah

I know I'm a lot to handle  
And I know that my heart's a handful  
Even in the dark, somehow you see  
The good in me, good in me
