

# Magic

Andy Grammer

Not saying I have clarity  
But one thing is clear to me  
There is more than meets the eye  
And it's what makes me come alive

I got visions, I got dream  
Undiscovered energies  
I walk the line of earthly things  
Thank the heavens for what she brings

I want more of it, I want more of it  
Come and give me all of it, I'm sure of it

I want chills, I want the static  
Want the rush, yeah, I got to have it  
I want more, more than the average  
Ooh, I want the magic  
Super soul, you know I'm an addict  
Wanna feel the miracles happen  
Made a life of abracadabbing  
Ooh, I want the magic

Hey  
Give me, give me, give me more of the magic  
I want the magic  
Yeah  
Give me, give me, give me more of the magic  
I want the magic

Little signs are everywhere  
Catch the whispers in the air  
Thank them for the gifts they bring  
(Amen) Someone's listening

Extra electricity  
Is all up in in my history  
I used to question everything  
But now I'm busy tapping in

I want more of it, I want more of it  
Come and give me all of it, I'm sure of it

I want chills, I want the static  
Want the rush, yeah, I got ro have it  
I want more, more than the average  
Ooh, I want the magic  
Super soul, you know I'm an addict  
Wanna feel the miracles happen  
Made a life of abracadabbing  
Ooh, I want the magic

Hey  
Give me, give me, give me more of the magic  
I want the magic  
Yeah  
Give me, give me, give me more of the magic  
I want the magic

I want the magic  
I want the magic  
I want the magic  
I know it's here, and I'm gonna grab it

I want chills, I want the static  
Want the rush, yeah, I got to have it  
I want more, more than the average  
Ooh, I want the magic  
Super soul, you know I'm an addict  
Wanna feel the miracles happen  
Made a life of abracadabbing  
Ooh, I want the magic
