

# Let Me Know

Andy Mineo

Let me know, let me know (Let me know)  
Let me know you  
Ear Drummers  
Let me know baby  
Let me know babe  
Let me know baby  
Let me

Let me know, let me know, let me know, yeah  
Let me know, let me know  
Let me know, let me know, let me know, yeah  
Let me know, let me know  
Talk to me, don't go talk to everyone except for I  
We can heal the things we hide, yeah, just sayin'  
What you need, I'ma come through, but I just need a little time  
I can read what's on your mind, that's right  
You should let me know, let me know, let me know, yeah  
Let me know, let me know

I ain't know my reader got no crystal ball, yeah  
I can tell you mad I think that it's my fault  
How it's only 8 A.M. and you big mad  
You right next to me but I can feel the distance, yeah  
Talk to me, you can trust me with your fear  
I said talk to me, whatever you show me I'm here for it  
I know you scared to make me the one you vent to  
'Cause I know you want a man not just a boy with some potential  
So just let me know

Let me know, let me know, let me know, yeah  
Let me know, let me know  
Talk to me, don't go talk to everyone except for I  
We can heal the things we hide, yeah, just sayin'  
What you need, I'ma come through, but I just need a little time  
I can read what's on your mind, that's right  
You should let me know, let me know, let me know, yeah  
Let me know, let me know

You ain't in a rush to open up, who deserve your trust?  
Gotta earn it slow, lose it fast, Louis Vuitton's and Birkin bags  
Ain't the days that make you dope, you got beauty in your soul  
I see God inside I swear there's a light about ya  
You make me proud to know you, I wish I knew you sooner  
'Cause your conversation crazy, got that vibe to change the room up  
Your body and your mind strong, you don't go through my phone  
You got hella clothes, why you always puttin' mines on?  
You know what they say about it  
Won't we assume?  
Must be game but I don't play none wit' you  
Not in the mood, no  
Please don't keep me waiting on you  
Let me know soon, I will tell you what to do  
Unless we up in that room, know what I mean?

Let me know, let me know, let me know, yeah  
Let me know, let me know  
Let me know, let me know, let me know, yeah

Let me know, let me know (Let me know)  
Talk to me, don't go talk to everyone except for I  
We can heal the things we hide, yeah, just sayin'  
What you need, I'ma come through, but I just need a little time  
I can read what's on your mind, that's right  
You should let me know, let me know, let me know, yeah  
Let me know, let me know (Let me know babe)  
Let me know, let me know, let me know, yeah  
Let me know, let me know (Let me know babe)
