

## ...Lost

Andy Mineo

I've been lost  
I've been lost  
I've been lost  
For some time, for some time  
I've been lost

I don't think I lost my mind, I think I made it (I've been lost)  
I don't think I lost my faith, I misplaced it (lost)  
I don't think I lost my pain, I upgraded, ay  
Traded fears of being nothing for being a replacement, wooh  
Voorhees, Eric & Jason  
How you got jaded?  
That's a long story don't wait for it, ay  
We wanna be God and we prayed for it  
Almost lost my momma  
Almost lost my mind  
Almost lost my manner  
Gotta make up time  
I still got some that I'm gon' be alright  
But if I lose my happy thought then I won't fly  
(I've been lost)

I was so high thought I never land, yeah  
I wanna come down  
We just hit some turbulence, but if I let go now  
How far will I fall  
I can't see at all

When I get above those clouds, yeah  
I know that the sun's out, I'ma be alright  
When I get above those clouds, yeah  
I know that the sun's out, I'ma be alright  
When I get above those clouds, yeah  
I know that the sun's out, I'ma be alright  
When I get above those clouds, yeah  
I know that the sun's out, I'ma be alright

Yeah, tell me who flying this plane?  
I might just die in this thang  
Trying to keep my mind in the game  
Lord, how long am I gonna fly sideways?  
This how the twelfth must've felt on Friday  
But I'm still waiting on Sunday  
Got me thinking that I should've stayed on the runway  
You get your hopes high, that's a long fall  
But better than not hoping at all  
So, I bet you if I never had pain  
Bet you that I never would pray  
Trust Him even when I don't see  
That's the definition of faith  
I know I got a problem with control  
Arrow gotta fly, let it go, ay  
You never said I wouldn't go through it  
Hmm, you just said I wouldn't be alone

I was so high thought I never land, yeah  
I wanna come down

We just hit some turbulence but if I let go now  
How far will I fall  
I can't see at all

When I get above those clouds, yeah  
I know that the sun's out, I'ma be alright  
When I get above those clouds, yeah  
I know that the sun's out, I'ma be alright  
When I get above those clouds, yeah  
I know that the sun's out, I'ma be alright  
When I get above those clouds, yeah  
I know that the sun's out, I'ma be alright

Yo, I got it  
I think I got the cover ideal for the first EP  
I had this moment where I was on a plane  
It was at LGA, it was getting ready to take off  
And it just looked gloomy and dark like thunder and lightning  
I didn't even think we were gonna take off  
Anyways, we started to take off, the pilot was like, you know, "Brace yourself, there's gonna be some turbulence"  
We started going through the clouds and everything is shaking  
I thought we was gonna die [\*laughs\*]  
But, when we got through the clouds, it looked like California  
It was like sunny and bright and beautiful  
It's like I almost had forgotten that the sun even existed  
And, I had this moment where I was like  
Yo, the sun is still here  
It was here the whole time, I just didn't see it  
And, I don't know, it just spoke to me, so  
The thought I had was, why don't we take one of the elements  
Take arrow and have it going through a cloud  
So, that half the arrow's above the cloud, half the arrow's below the cloud  
I don't know, I think it's a dope idea  
Hit me back, sorry
