

# Working On It

Andy Mineo

You say I'm impatient  
You say I'm forgetful  
You say that I'm too wild  
At least our life eventful  
Yeah, I complicate things  
When they could be simple  
Ain't you sick of talking bout me?  
Baby, please tell me something that I don't know

I'm no good at sayin' I was wrong  
I've always been the one to say you are  
I know what you want, it's always more  
I've been workin' on it  
At least you know I'm always inconsistent  
You say that my phone just like my mistress  
Then you try to say I never listen  
What you said? I missed it

You say I'm impatient  
You say I'm forgetful  
You say that I'm too wild  
At least our life eventful  
Yeah, I complicate things  
When they could be simple  
Ain't you sick of talking 'bout me?  
Baby, please tell me something that I don't know

(I'm working on it)  
(I'm working on it)  
(I'm working on it)  
(I'm working on it)  
Baby, please tell me something that I don't know

Say something, say something I don't know already  
Just got here now you wanna go already  
In the back door waiting with your coat already, yeah  
I know I'm never on time  
And you mad because it should've been your time  
Yeah, I know I'm a workaholic  
But (I've been working on it)

At least you know I'm always inconsistent  
You say that my phone just like my mistress  
Then you try to say I never listen  
What you said? I missed it, yeah

You say I'm impatient  
You say I'm forgetful  
You say that I'm too wild  
At least our life eventful  
Yeah, I complicate things  
When they could be simple  
Ain't you sick of talking 'bout me?  
Baby, please tell me something that I don't know

(I'm working on it)  
Don't know, tell me something that I don't know

(I'm working on it)  
Don't know, baby, please tell me something that I don't know  
(I'm working on it)  
Don't know, baby, please tell me something that I don't know  
(I'm working on it)  
(I'm working on it)  
Don't know, baby, please tell me something that I don't know  
(I'm working on it)

Baby, please tell me something that I don't know  
(I'm working on it)  
(I'm working on it)  
(I'm working on it)  
(I'm working on it)  
Baby, please tell me something that I don't know
