

# Yo Se

Andy Mineo

I am not just Latinx, I'm Latin excellence, yeah  
I be in the city uptown, runnin' round with my Dominicans, yeah  
Cause we young and we intelligent, yeah  
And it's lovin' over everything, yeah  
Please somebody got tell AOC we need her to be president, yeah  
First I'm gonna holler at twin, then I'm gonna holler at Andy (Mineo!)  
And we roll around New York with the drip like Hurricane Sandy, yeah  
Yo, Mineo family, do you remember when I was your trainer?  
We hit the gym to try and get you slim  
And then you fell in love with a chubby chaser  
Got engaged and you fell off  
But it's cool - you were happier, probably  
But why you on stage on a skateboard for a whole tour?  
Poser, you can't ollie, roll straight like a dolly  
And you probably fall off if you turn a little  
Last time I went to church with you  
I didn't quite burn, but I heard a sizzle  
It's all good cause I go though  
No se what I don't know, yeah  
Is it relieving that your girl is 'Rican?  
Cause now you got a reason to be speakin 'bout adobo  
Yeah, I know that's a low blow but it's cool  
You my bro though, yeah, we get rings like Frodo  
And when I'm in the city, we gonna get up for Lomo

Cause we gonna win, yo se  
Then we do it again, yo se  
I hit up my artist, he tattin' me up till I run out of skin, yo se  
We pull up the Benz, yo se  
Get in with my friends, yo se  
And all of the homies, they ridin' with me until we seein' M's, yo se  
Cause we gonna win, yo se  
Then we do it again, yo se  
I hit up my artist, he tattin' me up till I run out of skin, yo se  
We pull up the Benz, yo se  
Get in with my friends, yo se  
And all of the homies, they ridin' with me until we seein' M's, yo se

Yo se, I know, just in case you need translation  
Hold up, can we get some innovation?  
Look around, all I see is imitation  
Everybody tryin' to get up on a playlist  
Get they plays up, get they plays in but they played out  
Cause they makin' all the same thing, all the same thing  
All the same thing, thing, alright  
Can I get a little bit of patience?  
I been in the lab trying to cook, cook  
Try and keep my face in the good book  
Just cause she look good don't mean she a good look  
Emilio, I need you to listen  
I been trying to tell you this here for a minute  
How you got 99 problem, 99 problem  
And every single one of them women?  
That's what start to happen when you're young and handsome  
And you start to mackin', you had to bag one  
So you brought one back home  
And they leave your crib and then they start to yappin'

This one happened to know that this one, that one  
So they recognized the pic from the bathroom  
On your Instagram and then they hit DM like "Is this your man?"  
Oh no, not this again, alright, uh, when you gonna learn?  
When I talk to you 'bout it, all I ever hear you say is "yo se"  
What you trying to get burnt?  
You should get a girl from the church  
Looked at me like "no way", you can't tell anything to anybody  
When they know everything, I hope you got a plan  
Then he look at me dead in the face, said "Why you worryin' man?"

Cause we gonna win, yo se  
Then we do it again, yo se  
I hit up my artist, he tattin' me up till I run out of skin, yo se  
We pull up the Benz, yo se  
Get in with my friends, yo se  
And all of the homies, they ridin' with me until we seein' M's, yo se  
Cause we gonna win, yo se  
Then we do it again, yo se  
I hit up my artist, he tattin' me up till I run out of skin, yo se  
We pull up the Benz, yo se  
Get in with my friends, yo se  
And all of the homies, they ridin' with me until we seein' M's, yo se
