

Call

Andy Shauf

I want to hear your voice call
Down the empty street
Telling me to wait up
Telling me anything

I just want to hear your voice call
Down the empty street
Telling me you miss me
Just telling me anything

Hold me underwater
Let me soak it in
Do you want to hear anything I say?

I want to hear your voice call
Waking me instead
Of telling me the difference
Between living in my head

And living in the present
I thought everyone knew
That it's not always easy
Knowing what to do

Hold me underwater
Let me soak it in
Do you want to hear anything I say?

I want to hear your voice call
Down the empty street
Waking all the cars up
Waking all the people

I just want to hear your voice call
Any time of day
But now I'm swerving on the sidewalk
But I know you'll be okay

Hold me underwater
Let me soak it in
Do you want to hear anything I say?

Hold me underwater
Let me soak it in
Do you want to hear anything I say?

I want to hear your voice call
I want to hear your voice call
I want to hear your voice call
