

## Eyes Of Them All

Andy Shauf

Camera kisser fakes another smile  
Bends my ear so I stay awhile  
Oh I know this town can feel so small

I need to stretch my legs  
Find some big mistakes  
Find some big mistakes

Dream maker takes another sip  
Starts a fire with her fingertips  
Head to toe I'm falling into light

Oh it seems like truth  
I could fall for you  
I could fall for you

Oh you've got the eyes of them all  
When you're just dancing on your own  
Oh you've got the eyes of them all  
When you're just dancing on your own

She's talking circles  
Start to feel her words  
Float on past without being heard

I'm awash poured out into night  
I'll keep my eyes holding onto hers  
Holding onto hers

Oh you've got the eyes of them all  
When you're just dancing on your own  
Oh you've got the eyes of them all  
When you're just dancing on your own  
Oh you've got the eyes of them all  
When you're just dancing on your own  
Oh you've got the eyes of them all  
When you're just dancing on your own  
Dancing on your own

I light another so that I can breathe  
Deep in the cracks when she finally leaves
