

## Let's Be

Andy Shauf

Let's be older than we ever use to be  
Counting minutes on the clock by the tv  
Let's be smiling when mother sets the table  
Let's be hoping we're still able when we try

Let's forget all the things that we've been learning  
From the books with the pages not worth turning  
In the library we've never been more quite  
Not remembering our failures when we try

Let's be willing to become all of our dreams  
Let's be honest and honesty will lead  
On impression of everything I've seen  
So much younger than we've ever been

I've never been  
I've never been  
I've ever been
