

## Sunset

Andy Shauf

A light conversation  
Floats between windows  
Then makes its way through the aisles  
So playful together  
I knew it would be  
It feels like I know you so well

Oh my  
Never want to leave your side  
This isn't the end

Receipts and plastic bags  
Where did your car go?  
You don't seem to be surprised  
I offer you a ride  
And you don't think twice  
About climbing on in

Oh my  
Never want to leave your side  
This isn't the end

"Are we leaving the city?"

We're leaving the city  
Where did your phone go?  
You get quiet, you are scared  
Just watching the sunset  
And I'm letting you know  
Just how long I've loved you for

Oh my  
Never want to leave your side  
This isn't the end

Oh my  
Never want to leave your side  
This isn't the end

Oh my  
Never want to leave your side
