

# I Believe

**Andy Williams**

If you should hear that someone new  
Has eased the pain of losing you

Don't you believe it, not for a moment?  
Don't you believe it because it isn't true?

Those angry words that made us part  
Put out the flame that's in my heart

Don't you believe it, not for a moment?  
Don't you believe it because it isn't true?

I haven't changed, I still love you  
And it will always be

I only hope and I pray each night  
You'll feel the same about me

So if you hear some false alarms  
Like you're not welcome in my arms

Don't you believe it, not for a moment?  
Don't you believe it because it isn't true?

Oh, how I still love you
