

I'll Never Love Anyone Anymore

Andy Williams

I'll never love anyone anymore
I'll never love anyone like before
I loved her

My lady
Sweet lady
Sang for me the song
That made me love her
Made me love her

She played me
This lady
Took my song
And slowly changed the melody
Changed the part of me

I'll never love anyone anymore
I'll never love anyone like before
I loved her

Hang on to your star
But remember who you are
Take more than you need
And I'll set your spirit free

My lady
Sweet lady
I'll wait here for you
To play me tenderly
Every part of me

And maybe
This lady
Mistress of my jingle-jangle melody
Will wait for me

I'll never love anyone anymore
I'll never love anyone like before
I'll never love anyone anymore
