

Let's Love While We Can

Andy Williams

There's a race
I'd like to win but then
There's just no way to stop the clock on the wall
The spring and the fall from going

Here's a song
I'm gonna sing to you
And for the first time there's no between the lines
That's wasting our time on searching

So let's love while we can
We're dying from the day we're born
But I believe we can be born again
If you'll only let me love you

That's the words
I'm glad I sang them true
Now we're a heartbeat from the things that we planned
They be in your mind
Forever

So let's love while we can
We're dying from the day we're born
But I believe we can be born again
If you'll only let me love you

So let's love while we can
We're dying from the day we're born
But I believe we can be born again
If you'll only let me love you
So let's love while we can
