

Make It Easy for Me

Andy Williams

Only you
Can make the world go round
Can turn me upside down
Make it easy for me

Only eyes
That put the world to shame
Turn back and speak again
Make it easy for me

I wonder as I might
Is it real
If I turn out the light
What'll I feel
It's something that I know
That I can't explain
I don't know what it is
But here it comes again

Only you
Can love me like you do
Can make me feel anew
Make it easy for me

And wonder as I might
Is it real
If I turn out the light
What'll I feel
It's something that I know
That I can't explain
I don't know what it is
But here it comes again

Only you
Can love me like you do
Can make me feel anew
Make it easy for me

Only you
Make it easy for me
