

Our Last Goodbye

Andy Williams

It doesn't matter now
It's all gone wrong somehow
The show is over
Now we've said our last goodbye

All that is left for me
Is only a memory
Of nights you've shared with me
We've said our last goodbye

I try to smile and say
I know I'm better of this way
But in my heart I know
That I will never forget you
And let you

And so it seems to me
This isn't reality
Say it will never be
We've said our last goodbye
We've said our last goodbye
Goodbye
