Summer Love

Andy Williams

Who will be your summer love Like I was last summer Sharing every moment of Things we did last summer

Who will be satisfied Just to be by your side Who will kiss you, hold you tight Two silver silhouettes In the summer moonlight

Will you walk along the beach Like we did last summer Counting stars way out of reach Like we did last summer

Will you tell your heart, beware This is just a summer affair Or will you fall in love for keeps Like I did last summer
