

Hand In The Fire

Ane Brun

Come on, baby
You're a star
Get it all
Put your hand in the fire

Come on, darling
Break the fall
It's alright
You'll be fine
When you stumble

Tell me
Honestly
Are you truly free?

Come on, baby
You're a star
Get it all
Put your hand in the fire

There's something in my bones
Something in my bones
Something in my bones
Gotta shake it off
Gotta let it go
I gotta move on, gotta move on
Move on, gotta move on

There's something in my bones
Something in my bones
Something in my bones
Gotta shake it off
Gotta let it go
I gotta move on, gotta move on
Move on, gotta move on

Soul searching
Finding out
What you want
What is holding you back?
There's something
In your bones
Shake it loose
Let it go, move on

Tell me
Honestly
Are you truly free?

Come on, baby
You're a star
Get it all
Put your hand in the fire

There's something in my bones
Something in my bones
Something in my bones

Gotta shake it off
Gotta let it go
I gotta move on, gotta move on
Move on, gotta move on

There's something in my bones
Something in my bones
Something in my bones
Gotta shake it off
Gotta let it go
I gotta move on, gotta move on
Move on, gotta move on

There's something in my bones
Something in my bones
Something in my bones
Gotta shake it off
Gotta let it go
I gotta move on, gotta move on
Move on, gotta move on

There's something in my bones
Something in my bones
Something in my bones
Gotta shake it off
Gotta let it go
I gotta move on, gotta move on
Move on, gotta move on

There's something in my bones
Something in my bones
Something in my bones
Gotta shake it off
Gotta let it go
I gotta move on, gotta move on
Move on, gotta move on

There's something in my bones
Something in my bones
Something in my bones
Gotta shake it off
Gotta let it go
I gotta move on, gotta move on
Move on, gotta move on
