

Right In Time

Ane Brun

Not a day goes by, I don't think about you
You left your mark on me, it's permanent, a tattoo
Pierce the skin and the blood runs through

Oh my baby
The way you move is right in time
The way you move, it's right in time
It's right in time with me

I stand over the stove in the kitchen, watch the water boil and
I listen
Turn off the television

Oh my baby
The way you move is right in time
The way you move is right in time
It's right in time with me

I take off my watch and my earrings, my bracelets and everythin
g
Lie on my back and moan at the ceiling
Oh my baby
Think about you and that long ride
I bite my nails. I get weak inside, reach over and turn out the
light

Oh my baby
The way you move is right in time
The way you move is right in time
It's right in time with me

The way you move, it's right in time
The way you move, it's right in time
It's right in time
It's right in time
It's right in time with me
