

## everything to me

anees

I'll put the beat back on  
Ooh, ha, ha, ha

You are everything to me, you're the flower to the bees  
You're the honey in my tea, you're my little chickadee  
The way you float around me  
And you're the rain pouring down  
You're the scent of a rose as you enter my nose  
Girl, I float to the clouds  
I can't keep your name out my mouth

I can't keep your name out my mouth (Out my mouth)  
I can't keep your face out my mind (Out my mind)  
I can't keep your lips far away  
I drink you one sip at a time  
I can't keep help the way that I fall  
So will I with every hour, discover you and empower you  
Decorate you and flower you, with praise I will shower you, girl

I love you simply because I do  
I love you simply because I do  
I love you simply because I do  
I love you simply because I do

As you sleep, angels dance  
Around your pillow, there's a glow  
When you rest, fairies fly in the sky your name is known  
In the trees, birds and bees whistle about your love in tones  
Even sirens in the ocean sing your praises down below  
Who am I to be numb to the magic of your style?  
I could try to resist, but my nature won't comply  
My mind is telling me no, but my body just can't deny  
If every creature of God worships you, who am I?

I love you simply because I do  
I love you simply because I do

I'm unable to stop when I'm thinking about you  
I'm engulfed in the joy when you look at me, boo  
So unable to stop when I'm thinking about you  
I'm engulfed in the joy when you look at me, boo  
It's not a choice that I make I don't have reasons for why I love you  
I believe it's a primal feeling, it's not mental  
I just love you 'cause I'm meant to

I love you simply because I do  
I love you simply because I do  
I love you simply because I do  
(Just like the warmth to the summer)  
I love you simply because I do  
(Like the rain to the storm)

I love you simply because I do  
(It's the way I was born)  
I love you simply because I do  
I love you simply because I do  
(To love you, simply like I do)  
I love you simply because I do  
(Simply because I do)
