Fly fly fly

Every night when I close my eyes  
I wait on you to walk in a sea  
Of dreams in my mind  
And it might be wrong  
To wait for so long  
But I can't live with the thought  
Of someone else in your life  
If you only knew  
How long I've waited for you  
To turn around  
Just turn around

When I close my eyes  
I'm able to fly  
And you're by my side in the air  
And I fill my life  
With champagne on ice  
It doesn't mean a thing if you're not there  
In my dreams we fly together

Fly fly fly  
Fly fly fly  
In my dreams

I know we've got a little bit more patience  
I know you're probably spending less time waiting  
Don't want you giving up a chance worth taking  
I never wanted you to see a side of me you didn't wanna see  
I'm bettering myself it's taking time to sleep  
Or fall asleep uncomfortably cause you're not here  
And honestly I'm suffering with you not in my bed  
You know it's hard for me to open up  
'Cause nowadays I got not trust  
And ain't no body checking up  
Or offering a helping hand to pick me up  
It's nothing, I need something familiar to help me with my head

When I close my eyes  
I'm able to fly  
And you're by my side in the air  
And I fill my life, yeah  
With champagne on ice  
It doesn't mean a thing if you're not there  
In my dreams we fly together

Fly fly fly, oh  
Fly fly fly  
In my dreams we fly together

Fly, fly, fly  
We fly together  
Fly fly fly  
Uh yeah yeah

When I close my eyes

I'm able to fly  
And you're by my side in the air  
And I fill my life  
With champagne on ice  
It doesn't mean a thing if you're not there  
In my dreams we fly together

Fly fly fly  
Fly fly fly
