

# Pieces

Anella Herim

Look at what I did  
I hope you know this  
Mm try to hide me from your friends  
You know I know this  
So I play it like a game just like you do do do  
And I'm the price you pay, oh God it's true true true

So now I'm picking up the pieces  
Tearing down the curtains  
Imma let the light in  
Tell me if it hurts dear  
You thought you could leave when  
Everything I worked for  
I hope you feel better  
I can make you hurt more

Oh, I can make you hurt more

Tell me that you never felt the same  
Cause I know you did  
(I know you did)  
Flame will flicker as we fade  
Yeah we chased its tips  
(We chased its tips)  
I don't wanna waste time  
Just meet me in the middle on the baseline  
I'm just tryna write things I can cry to  
So every time you listen it reminds you minds you minds you minds

So now I'm picking up the pieces  
Tearing down the curtains  
Imma let the light in  
Tell me if it hurts dear  
You thought you could leave when  
Everything I worked for  
I hope you feel better  
I can make you hurt more

Now I'm picking up the pieces  
Tearing down the curtains  
Imma let the light in  
Tell me if it hurts dear  
You thought you could leave when  
Everything I worked for  
I hope you feel better  
I can make you hurt more

I don't wanna waste time  
Just meet me in the middle on the baseline  
(I-I-I can make you hurt more)  
I'm just tryna write things I can cry to  
Every time you listen it reminds  
I can make you hurt more
