

## **Stalling**

**Anella Herim**

Yeah, ay

Falling, by the waistline, I knew this was gonna take time, but  
you're  
Stalling, at the same time, never thought you'd be the one to waste time  
Quit it with the FaceTime meet me in person  
Try to figure out if it's really worth it  
I'ma stick around, see beneath the surface  
I know if this goes down, I'ma be the one hurtin'

Ay, why you leave me out like that, ay  
Left me in the rain, out in the clouds like that  
You just love to see me down like that  
I won't ever be the same and you proud like that  
No, the old me was the love and the family  
I had to mix it up to the drugs and the candy  
Late-night got me up, no sandy  
She won't catch me creepin' to the club in the Cherokee

Falling, by the waistline, I knew this was gonna take time, but  
you're  
Stalling, at the same time, never thought you'd be the one to waste time  
Quit it with the FaceTime meet me in person  
Try to figure out if it's really worth it  
I'ma stick around, see beneath the surface  
I know if this goes down, I'ma be the one hurtin'

Ay, I'd rather get a bag and spend a bag, than go and waste my time  
Slavin' in the booth, I got so used to good things taking time  
Swear I seen 'em coming, hit the dash there ain't no winning side  
I just get a boost from hitting payments with these flashing lights  
Pedal to the metal hit the gas, I see the finish line  
Had to do em dirty, swerving lanes, I started blurring lines  
Swear she hit me up, she seen I got the fame, she got a time  
Crazy how they change, and on my name, they took a dollar sign  
And I'm...

Falling, by the waistline, I knew this was gonna take time, but  
you're  
Stalling, at the same time, never thought you'd be the one to waste time  
Quit it with the FaceTime meet me in person  
Try to figure out if it's really worth it

I'ma stick around, see beneath the surface  
I know if this goes down, I'ma be the one hurtin'
