Without Me

Anella Herim

Don't tell me what you knew about me
Cause I hate what you turned in to without me
Like why you acting so brand new around me
So washed up so damn cruel without me woah
We won't ever be the same no
I wish I never knew your name woah
You ain't what you used to be
The new you just a fool to me

Used to have time for me
Now you can't even check the time for me
You won't even spare a dime for me
Claiming that I changed, like I'm asking you to lie for me woah
I thought you told me you would die for me
You turned your back, like it was never ride or die with me
I ain't asking you to look at me and cry for free
We changed paths, you just go and live your life to be
Alone
So stop callin my phone
No I don't wanna talk right now
I'm so over trying to work things out
Helping me to catch a breather in the smoke right now

So, Don't tell me what you knew about me
Cause I hate what you turned in to without me
Like why you acting so brand new around me
So washed up so damn cruel without me woah
We won't ever be the same no
I wish I never knew your name woah
You ain't what you used to be
The new you just a fool to me

I can see ya knew friends think they know you
Control you, they all acting like they own you
But the old you, wouldn't let em walk over
So give me what I own, I ain't looking for no closure
No help on the other side, so see me when you sober
Talkin to you now I don't think imma ever wanna
See you come around again cause I don't even know you
I don't even wanna get to know you
 (Mmm)
I don't even chill none no more
The medias on these pills I don't want none
They been trying to put me in my feels but I won't budge

So, Don't tell me what you knew about me
Cause I hate what you turned in to without me
Like why you acting so brand new around me
So washed up so damn cruel without me woah
We won't ever be the same no
I wish I never knew your name woah
You ain't what you used to be
The new you just a fool to me
